CC Docket No. 02-6

**Request for Review: USAC Administrators Decision on Appeal**

To whom it may concern:

Background

My company, AmeriPro, Inc. was retained by Pearl River Public School District (BEN 123751) to conduct an audit and analysis of telecom related costs in Fall of 2009.

Part of our work effort involved reviewing carrier information available from public domain (USAC, Erate Central) websites. In this process we noticed multiple years in which USAC approved Erate funds but the funds were never disbursed. We discussed this finding with the Administration of Pearl River Public School District.

We reached out to USAC directly in January. We were assigned case number 21-993424. We specifically discussed Funding Year's 2003-2004

471: 358119

FRN: 966910

471: 358100

FRN: 996885, 966886,966885

471: 408569

FRN: 1119923, 1119962, 1119978, 1119998, 1120017, 1120165

We were advised by USAC the Invoice for Deadline Extension request should have been filed.

The district had many changes in management during this timeframe, and were informed the erate process was underway and not in jeopardy.

Timeline of Events

We electronically submitted a Request for Invoice Deadline Extension to USAC.

We received a Denial from USAC.

We electronically submitted an Appeal to the FCC.

We respectfully seek approval to resubmit all documents in a timely manner.
